

FAER Academy of Research Mentors in Anesthesiology 2010 Nomination Instructions

Established in 2004 by FAER, the Academy of Research Mentors in Anesthesiology's objective is to recognize those individuals who through their activities as mentors have made major contributions to the development and advancement of academic anesthesiologists in the area of research and have promoted the activities of mentoring among others in the specialty, increasing academic research activities and promoting the academic image of anesthesiology.

We invite nominations for membership in the Academy. Any active member of the Academy or the Chair of an academic department may submit candidates for membership. All nominees should be actively involved in research relevant to the anesthesiology community and should be currently involved in mentoring activities. The main criterion for selection to membership in the Academy is the quantity and quality of the current and prior mentoring experiences. To increase the participation of minority researchers as mentors, we encourage nominees from underrepresented populations in order to increase the cultural and ethnic diversity of the Academy.

Nominations should include:

1. A cover letter from the nominator emphasizing the mentoring experience of the nominee.
2. The nominee's biographical sketch (please use the standardized FAER Biographical Sketch form provided).
3. The nominee's trainee list (please use the FAER Mentor Table form provided).

Candidates will be reviewed by a membership selection committee and submitted for final vote to the entire membership.

Nominations should be submitted to the FAER office via e-mail to *schrandt.mary@mayo.edu* by August 20, 2010.
